## Director's Meeting

Thursday, 15 November 1951

Mr. Dulles mentioned the press release on the <sup>s/laughter</sup> status of prisoners held by the North Koreans. No one seems to know the details or who released it. Mr. Wisner brought up the point that such releases could have quite a psychological effect and should be coordinated with the PSB prior to publication. The DCI will take this up at the PSB meeting this afternoon.
